

**HOW TO USE ...**

# SOFTCUT SERIES

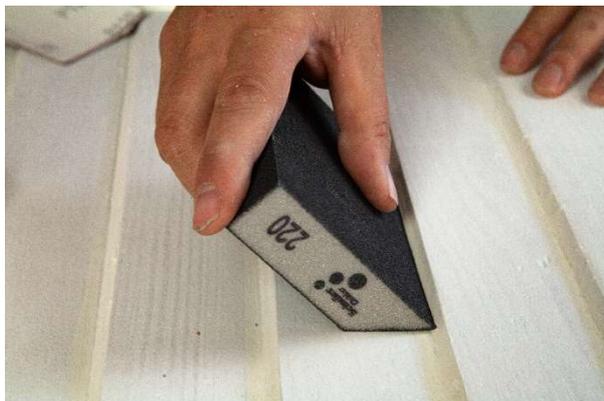

6000...(SOTCUT), 6010...(FLEX), 6003...(PRO)

The SOFTCUT FLEX sanding pad is ideal for dry and wet sanding. Due to its flexibility, it can be used for a wide variety of sanding operations.

The SOFTCUT sanding sponge is ideal for working on curves, crevices and corners.

Our SOFTCUT PRO is perfect for hard-to-reach places thanks to its bevelled long side.

The SOFTCUT FLEX and SOFTCUT series is available in practical sets and in various grit sizes. Eh'klar!
