TENDA TACK cover fleece self-adhesive

(Article-Nr.: 46396, 46398)

Description:

Self-adhesive and liquid-tight nonwoven covering for dry surfaces against moisture and dirt.
Made from recycled polyester fibers. Do not use on wet, freshly laid floors.

Product features:

- Protects surfaces against liquids of any kind (paint, solvent...)
- Shock-absorbing, robust and tear-resistant. Can be wiped and vacuumed
- Light, easy installation and repeatedly useable
- Self-adhesive no fixation with tape needed, impermeable painter fleece
- Made from recycled polyester fibers
- Extremely supple, e.g. for stairs

Application:

- Foil side up, overlap the sheets by approx. 10 cm, press the seams down firmly!
- Turn off any direct floor heating system before laying!!!!
- Protect against direct sunlight.
- The areas to be covered must be dry and clean of dirt and trash underneath.
- Never use the floor protector material prior to 72 hours after a final finish coated has been applied.
- Allowable room temperatures: 10 – 25°C
- Allowable room humidity: 50 – 60%
