TARGA SUN CORE

(Article number: 45891, 45892, 45894)

Short description:

This Masker is a perfect combination from the SUN CORE tape and a high quality, electrostatic handled HDPE foil. The adhesion of paint on the foil is very good, so there is no contamination on the protected surface. The adhesive tape allows fine colour lines and edges, also by doing several layers of paint.

Product data:

Material	saturated japanese paper	
Adhesive	natural rubber	
Total thickness	95 my	
Adhesion to steel	3,5 N/18mm	
Tensile strenght	55 N/18mm	
Elongation at break	5,6%	
Temperature resistance	until +150°C (30 min.)	
UV-resistance	until 4 months	
HDPE – Foil		
Total thickness	7-10 my HDPE foil	

Aplication:

The TARGA SUN CORE protects against dashes, paint drops and other contaminations. By the UV resistance, it's ideal for indoor and outdoor usage. It is suitable on glass, metal, vinyl, wood, concrete, painted walls, plastered surfaces and trims. They could be problems at carbon and porous materials (stone, wood...), therefore it is essential to could be do a relevant test adhesion before doing the actual work.

Conditions:

Store in a cool and dry place, away from sunlight and direct heat sources (23°C / 50% relative humidity). As far as the storage conditions are respected, the product is garanteed 12 months.
